# API WALLING

**With the continuing demand for housing in the UK, API Stone Ltd now produce and stock course heights up to 290mm, and 100mm on bed pitch faced walling from our standard API Vein and Beige blocks.**

API Stone Ltd works alongside many of the countries large and prestigious house builders such as Conroy Brook Developments, Camstead Homes, Berkeley Homes, Bellway Homes and Chartford Homes. API Stone Ltd are able to supply a complete package of walling, stock heads and cills to contractors so that products can be obtained from a single source.

Our stock walling has a pitch faced front but projects for split faced can also be accommodated if required.

**API Walling has been supplied to many large residential sites, commercial properties and industrial units throughout the UK. These include:**

- Camstead Homes, Moortown, Leeds.
- Conroy Brook Developments site at Ingbirchworth, Huddersfield.
- Thompson Farm and Equestrian Centre in Standish, Wigan.
- Premier Inn, Harrogate.

API Walling is specified throughout the UK on a regular basis and is a suitable match for many Yorkshire and Derbyshire buff/beige sandstones.

Stock is held in Huddersfield and the stone is also available in ashlar section sizes of 100mm x 100mm, 100mm x 140mm, 150mm x 140mm, 100mm x 215mm in various lengths and 50mm paving in 600mm gauge.

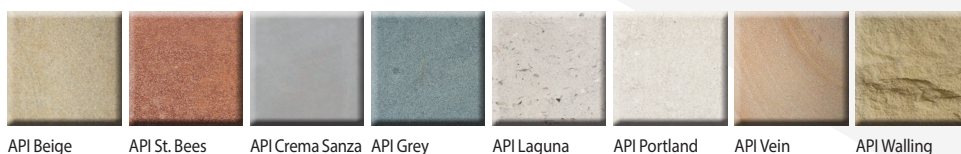

Extensive stocks are readily available.

## CASE STUDY

*Thompson Farm and Equestrian Centre*

Working with the main contractor JAY Properties, API Stone Ltd supplied the full stone package for this development in Standish, Wigan.

The remit from the owners of the development was to use a stone that complemented the red brick that had been chosen on the main house.

API Walling was chosen over competitors from Yorkshire and Derbyshire and looks spectacular now finished.

The project also had an element of ashlar which integrated extremely well with the various areas of walling and red brick.

The site was completed in February 2014.
